## EXPERIENCE

### Operations, Android Club (20023 > PRESENT)

As the Operations Core at the Android Club, University, I spearheaded the planning and execution of hackathons, workshops, and events aimed at advancing knowledge in Android development. Responsibilities included coordinating logistics, fostering member engagement, cultivating partnerships with industry stakeholders, executing marketing strategies, and facilitating knowledge-sharing sessions to enhance members' skills. Through effective leadership and collaboration, I contributed to the club's growth and success in promoting Android development within the university community.

### Management, Humanoid Club (2023 > PRESENT)

As the Management Core at the Humanoid Club, University, I directed the strategic management of club activities focused on humanoid robotics. Responsibilities included overseeing event planning and execution, coordinating logistics, fostering member engagement, cultivating partnerships with industry stakeholders, executing marketing strategies, and facilitating knowledge-sharing sessions to enhance members' skills in humanoid robotics.

## EDUCATION

### Indian Institute of Technology Madras (2027)

BSc - Data Science

### Vellore Institute of Technology Chennai (2006)

BTech – Computer Science Engineering
